BE WATER WISE DURING HOT SUMMER MONTHS!!!!

Summer's high heat and long days result in an increased demand on our city's water system.

◆ **Reduced water use is very important during the period of 4:00am and 9:00am.**

During the summer months this period of the morning is typically very high in usage.

◆ **Please set your landscape watering schedule to the early morning hours between 12:00am and 4:00am.**

By making some adjustments you will conserve water and reduce your water bills. If we all work together, we can make a difference or California's future.

YARD SALES

Residents are allowed to have two yard sales per year, no more than one yard sale in any six month period. One sign may be displayed at the premises of the sale only and to be removed at the end of the event. Yard sale signs are not allowed in the public right-of-way; this includes sidewalks, street light poles, stop sign poles and utility poles. ■

STORMWATER CORNER

We need your help to promote proper pick-up and disposal of pet waste! While many dog owners are responsible, it's time to make sure that pet waste is properly managed for the good health and benefit of everyone. Rain can carry pet waste directly into waterways or storm drains, which usually empty without any treatment into a stream, river, or ocean. Untreated fecal matter can be a source of harmful bacteria (such as Giardia and Salmonella) and nutrients. Just as we don't want human sewage in our water, it is important to prevent pet waste from being carried into our waterways. It isn't just water quality that can suffer. Leaving pet waste on the ground, especially in public areas like parks or playing fields may pose a risk to children, adults, and even pets. Scooping your pooch's poop isn't just a courtesy for those walking behind you; it's the healthy and environmentally sound thing to do. ■
